

Energy Efficiency is the Cornerstone of *Green* for Your Business

Looking for ways to add to the bottom line of your business?

If your business is an electric customer of NorthWestern Energy in Montana, it may qualify for a **free** Efficiency Plus (E+) Energy Appraisal. A team of energy specialists come to your business to evaluate your energy uses and to provide *custom recommendations* as to how energy costs can be better managed. We'll also provide you with information about E+ rebates or incentives that may be available to you and about resources to help you get the project completed.

Every dollar saved in energy adds to your bottom line.

Qualifications may apply but most businesses served with NorthWestern Energy electricity are eligible for this free service.

Call NorthWestern Energy E+ Hotline for details. 800-823-5995.

Information about E+ Programs for businesses and homes is available at

www.NorthWesternEnergy.com/eplus

Savings Made Simple. If you're a commercial electric or natural gas customer of NorthWestern Energy, you're probably leaving money on the table.

Surprised? You're in good company. Many businesses don't take advantage of rebates and incentives we offer for implementing energy efficiency measures. The fact is, our Efficiency Plus (E+) Program offers you dozens of ways to save on energy through reduced use, rebates and incentives. Before you plan existing upgrades or new construction, check out your options.

Lighting often presents opportunities for saving energy – and rebates are available. However, rebates and incentives are also offered for highly specialized measures, such as sensors for parking garages.

Here you'll find a quick reference guide to rebates and programs for which your business may qualify. If you want details about qualifying measures, please visit NorthWesternEnergy.com/Eplus or call (800)823-5995.

Most NorthWestern Energy commercial, industrial, and agricultural customers in Montana qualify for E+ programs. Electric programs are limited to NorthWestern Energy electric customers and natural gas programs are limited to NorthWestern Energy natural gas customers. However, there are a couple of exclusions. For instance, there are 20 or so large USB Electric Choice customers that do not qualify for electric E+ programs. Natural gas customers are required to buy their natural gas supplies from NorthWestern Energy to qualify for E+ Natural gas programs. *If you are unsure, please contact us.*
