

Get a free energy audit before cold weather returns

If you are a NorthWestern Energy residential natural gas or electric space- or water-heating customer, just call (800) 823-5995 to ask about a free energy audit. Our specialists will analyze your home energy usage, show you how to make your home more energy efficient and provide information on rebates and incentives for qualifying energy efficiency measures.

Your free on-site energy audit includes:

Energy usage survey, insulation evaluation, blower door test to detect areas of air leakage, water heater temperature check, refrigerator/freezer temperature check, and gas equipment safety check.

You also may be eligible for:

Free water heater tank wrap, free hot water pipe insulation, and free low-flow faucet aerators and showerhead

After your audit you will receive:

A customized report on your home's energy usage Recommendations for better energy cost management Information on rebates for installation of qualifying energy efficiency measures like insulation, programmable thermostats, high-efficiency natural gas equipment and CFLs.

**To request your free home energy audit, call
800-823-5995.**
