

NORTHWESTERN ENERGY 2018 ELECTRICITY SUPPLY RESOURCE PROCUREMENT PLAN

TABLE OF CONTENTS VOLUME 1

| <u>SUBJECT</u> | <u>PAGE</u> |
|---|-------------|
| CHAPTER 1 – EXECUTIVE SUMMARY | |
| Key Findings | |
| • Summarize Issues in terms of Key Findings..... | |
| • Resource Needs (key findings) | |
| • Resource Solutions (key findings)..... | |
| • Preferred Portfolio (key findings)..... | |
| Action Plan | |
| • Near Term Action Plan | |
| CHAPTER 2 – PLANNING HISTORY AND PROCESS..... | |
| NorthWestern Resource Planning History | |
| • 2011 Resource Plan..... | |
| • 2013 Resource Plan..... | |
| • 2015 Resource Plan..... | |
| • 2017 Planning Process | |
| Regional Resource Planning History | |
| • NWPPC 7 th Power Plan (Includes conclusions/updates) | |
| • Other Regional Resource Plans (includes conclusion/updates)..... | |

CHAPTER 3 – RESOURCE NEEDS

Existing Resource Portfolio

- **Energy Production**
 - **Definition**
 - **Historic Production**
- **Capacity**
 - **Definition**
 - **Available Resource**
- **Ancillary Services Methodology**
 - **Definition**
 - **Available Resources**

Energy Forecast

- **Overview and Background**
- **Methodology**
 - **Customer Forecast**
 - **Retail Load Shape**
 - **Energy Load Balance**
 - **Uncertainty**
- **Energy Usage and Needs**

Peak Demand Forecast

- **Winter Peak Load**
- **Summer Peak Loads**
- **Resource Adequacy Needs**
 - **Regional Studies**
 - **NorthWestern Studies**
 - **Reliability Requirements**

Flexible Capacity Needs

- **Transmission Integration study**
 - **Flexible Capacity Need**

- Flexible Capacity Need for Additional Renewables

CHAPTER 4 – RESOURCE OPTIONS

Generation Resource Options

- Thermal Resources
- Natural Gas-Fired Resources
- Coal-Fired / Carbon Capture and Sequestration
- Thermal Upgrades
- Hydroelectric Resource Options.....
- Hydroelectric Upgrades
- Renewable Resources
- Solar PV Resources
- Wind Resources
- Distributed Generation
- Other Renewable Technologies
 - Geothermal

Energy Storage Options

- Overview of Storage Technologies.....
- Physical Storage Technologies.....
- Pumped Hydro
- Compressed Air Energy Storage
- Other Storage Technologies
- Battery Storage Technologies.....
- Lithium-Ion
- Vanadium Flow Redox
- Other Battery Technologies

Demand Side Resource Options

- DSM Resource Study
- DSM Goals

- **DSM Budget and Spending**

Demand Response Options

CHAPTER 5 – PLANNING ENVIRONMENT

Federal and State Legislative Actions

- **Federal**
- **State**

Environmental Considerations

- **National Environmental Considerations**.....
- **Regional Environmental Considerations**.....
- **Carbon Costs**.....

Fuel Price Forecasts

- **Natural Gas Price Forecast**.....
- **Colstrip Coal Price Forecast**.....

Electricity Price Forecasts

- **Impact of WECC Renewables**.....
 - **Market Price Volatility**
 - **Daily Load Shape**
 - **Implied Market Heat Rates Over Time**
- **Montana Basis Differential**
- **Market Liquidity**
 - **Physical Limitations**
 - **Market Limitations**

Renewable Portfolio Standard

- **Overview and Background**
- **Renewable Energy Credits**
- **Community Renewable Energy Projects**.....

Regional Markets

- **Energy Imbalance Markets**

- **Regional Transmission Organizations / Independent System Operators.....**

- **Participation in Organized Markets.....**

Real Power Balancing and Reliability Based Control

- **Background and Overview**

Transmission Considerations

- **Background and Overview**

- **Northern Tier Transmission Group.....**

- **Transmission Infrastructure Constraints**

- **Electric Transmission**
- **Natural Gas Transmission**

CHAPTER 6 – PORTFOLIO MODELING

Optimal Capacity Expansion Analysis

- **Background and Overview**

- **Capacity Expansion**

- **Optimal Expansion Analysis**

PowerSimm Modeling and Analysis

- **Modeling Overview.....**

- **Model Enhancements.....**

- **Market Heat Rate Curves**
- **Daily Price Curve**
- **Market Price Volatility**
- **Market Sales Limitations**

Modeling Results and Conclusions

- **Introduction.....**

- Options for Capacity Expansion
- Capacity Expansion Charts
- Portfolio Analysis
- Valuation of Risk
- Net Present Value of Portfolio Costs
- Carbon Footprint
- Conclusions

CHAPTER 7 – ACTION PLAN

Action Plan

- Short Term Action Plan.....
- Long Term Action Plan

DRAFT
