Do You Own or Manage a Business?

Find out about the energy efficiency of your business with the FREE E+ Energy Appraisal!
Call (800) 823-5995 for details.

REBATES are available to NorthWestern Energy Commercial electric customers for efficiency improvements for lighting, motors and other electric energy-saving measures.

Visit www.northwesternenergy.com for details on energy efficiency programs for your home or business.

NorthWestern Energy's programs for energy efficiency and renewable generation are funded through electric and natural gas supply rates and the Universal System Benefits Charge paid by Montana customers.

WHAT ARE YOU WAITING FOR?

Before winter returns, it is a great time to find out how to keep the cold out and warm in. Call NOW to schedule an Efficiency Plus (E+) Energy Audit from NorthWestern Energy. If you heat your home or water with NorthWestern Energy electricity or natural gas, you may be eligible for a FREE audit.

We send energy specialists to your home and they inspect it for air leaks and inefficient energy use. You'll get information specific to your home and how you use energy along with recommendations to save energy and money!

Here is what the Audit includes:

Energy usage survey

Evaluation of insulation levels

Check of hot water temperature

Check of refrigerator/freezer temperature

General check of gas equipment

Blower door test for air leakiness to identify air sealing needs; air sealing materials may even be provided for FREE

AFTER THE AUDIT...

You'll receive a customized report on your energy usage; recommendations to better manage energy costs; and information on **REBATES** for qualifying insulation measures, programmable thermostats, high efficiency natural gas equipment and compact fluorescent lights (CFLs).

If needed, the following are installed:

FREE water heater tank wrap and hot water pipe insulation

FREE low flow faucet aerators and showerhead

FREE compact fluorescent light bulbs (CFLs)
