Energy Share makes it easy to care.

Winter in Montana can be long and cold, especially if you can't afford to heat your home. And every year, some Montanans fall victim to harsh winters and circumstances that leave them unable to cope with their heating bills. That's why thousands of people across the state do what Montanans have always done: help their neighbors in need by giving a little extra to

keep homes warm. Energy Share of Montana is an independent, nonprofit organization formed to help people who cannot afford to heat their homes, but may not qualify for other forms of assistance. Energy Share is more than a helping hand in an energy emergency. We also work to educate Montanans about energy issues facing low-income people, with an emphasis on

looking for ways to help recipients move toward self-reliance through energy efficiency.

If you are currently donating to Energy Share, thank you for your generosity! Your support is greatly appreciated. If you are already donating to Energy Share through your bill, you do not need to re-submit this pledge card.

Thank you!

Your contribution is well spent.

Energy Share of Montana is an independent nonprofit organization that helps Montanans overcome energy emergencies and move toward self reliance. Donating to Energy Share means you help a neighbor who is facing loss of heat or lights, and help

them maintain energy-efficient and safe appliances. Your gift is used first in your geographical area so you're truly helping someone close to home stay warm. Not a single penny of your contribution is spent on administration. All donations are tax deductible.
