

CLASS OF SERVICE: Commercial and Industrial Rate No. 84
RATE DESIGNATION: Firm Sales Service

(Con't.)

5. Surcharge Provision

During curtailment of service upstream service providers may have available to the Company gas under a different and higher-priced rate than the cost of gas on which this rate is based. In addition, the Company may have propane peak shaving gas available. The surcharge rate per therm for propane peak shaving will be based on beginning of month average propane inventory cost in South Dakota. Should such higher-priced gas be available, the Company may offer it to customers served by this rate schedule with an appropriate surcharge to recover the Company's additional costs in lieu of curtailing service under this rate schedule. All surcharge gas charges collected will be in addition to the regular Commodity Charge for such gas. Costs collected will be credited to expense in Adjustment Clause filings.

6. Procedure for Curtailment of Service

Service, other than firm service, which is rendered under this rate schedule shall be subject to curtailment by the Company in accordance with the priority guidelines set forth in the Company's General Terms and Conditions, Section No. 5, Sheet No. 5.2. The Customer shall, as directed, curtail the use of natural gas in excess of firm contracted volumes upon two (2) hours notice by the Company, unless the notification is waived by the Customer.

7. Other Provisions

Service will be furnished under the Company's General Terms and Conditions, as set forth in Section No. 5. Daily firm demand shall be assigned by the Company based on 1) a 24 cold day read or 2) if a 24 hour cold day read is not available, the daily average of the customer's highest usage month, or 3) in the instance of a customer new to the system, the firm demand will be established based on an agreed upon connected load between the Company and the customer, and will be updated with items 1) or 2) as the information becomes available.
